

REQUEST FOR PROPOSALS

General Contracting Services - Hamlet of Arviat John Ollie Complex Foundation Stabilization

Statement of Request:

The Hamlet of Arviat is inviting qualified applicants to submit proposals to provide General Contracting services to the Hamlet of Arviat as it undertakes the permafrost foundation stabilization of the John Ollie Complex (community hall) in Arviat.

The Hamlet of Arviat is seeking a qualified General Contractor to provide work, expertise, supervision, equipment, labour, materials, and technical skills required to complete the installation of ground insulation and a thermosiphon system at the John Ollie Complex as per Issued for Tender drawings prepared by Accutech Engineering Ltd. Work includes:

- Civil Works (excavation, trenching, backfilling, granular material supply);
- Supply, shipping, and installation of ground insulation;
- Sea-lift offload and temporary materials storage;
- Supply and installation of Concrete Radiator Bases;
- Supply of site material handling and suitable hoisting machinery.

Note that the provision, shipping, and installation of the thermosiphon systems is already contracted to a qualified company. The successful General Contractor to this RFP will work with the Hamlet of Arviat and thermosiphon supplier to coordinate and complete the work as per the engineered drawings.

Submission Information

Proposals to undertake this work will be received until **Friday, June 27th, 2025 at 5:00 PM Central Time**. Proposal must quote "Hamlet of Arviat John Ollie Complex Foundation Stabilization Project Phase 2" on the cover sheet.

Responses must be submitted electronically to the below contact via e-mail. For full RFP documents, including IFT drawings, contact:
