Public Hearings in Inukjuak

Innavik Hydroelectric Project by Pituvik Landholding Corporation in association with Innergex

About the Kativik Environmental Quality Commission (KEQC)
The KEQC is responsible for implementing the environmental and social impact assessment and review procedure with respect to development projects under the provincial jurisdiction north of the 55th parallel.

Description of the project
The Innavik Hydroelectric Project, by Pituvik Landholding Corporation in association with Innergex, involves the development of a 7.5-MW hydroelectric generating station at a distance of 10.3 km from the mouth of the Inukjuak River. The proponent claims that the hydraulic resource will allow the community of Inukjuak to transition from diesel and heating oil to this new and renewable energy source.

Public hearings
The KEQC invites all Nunavimmiut and the various organizations in the region to participate in the public hearings, which is to take place in Inukjuak, Nunavik.

Monday, March 11, 2019
1:00−5:30 pm Inukjuak, Recreation Centre
7:00−10:00 pm Inukjuak, Recreation Centre

Tuesday, March 12, 2019
9:00−11:00 am FM radio

The KEQC will listen to the comments, questions and recommendations related to the hydroelectric project. The Commissioners will also accept any written documents. The KEQC invites anyone wishing to learn more about the project or to share their concerns to attend the public hearing.

The proponent will attend this public hearing and will be available to answer questions. For more information regarding the KEQC or the Innavik Hydroelectric Project, please visit www.keqc-cqek.ca/en.
