

NOTICE OF RESUMPTION OF PUBLIC HEARING

PHASE 2 DEVELOPMENT PROPOSAL

The Nunavut Impact Review Board (NIRB or Board) has scheduled the resumption of the in-person **Public Hearing** in respect of Baffinland Iron Mines Corp’s “**Phase 2 Development**”, a proposed amendment to the approved Mary River Project (NIRB File No. 08MN053). The Public Hearing is part of the NIRB’s reconsideration of the terms and conditions of the Mary River Project Certificate No. 005 under Article 12, Section 12.8.2 of the *Nunavut Agreement* and s. 112(1) of the *NuPPAA*.

The primary location for the proceedings will be **Pond Inlet Community Hall starting on January 25, 2021 and ending on February 6, 2021.**

DATE	SCHEDULE
January 25-30, 2021	Conclusion of Technical Presentations
February 1-6, 2021	Community Roundtable

The Public Hearing and the form and content of submissions will be guided by the *NIRB Rules of Procedure (2009)*, as may be modified to reflect applicable Public Health Orders. The proceedings in Pond Inlet will be open to the public and will be conducted with simultaneous interpretation into Inuktitut.

To comply with Public Health Orders limiting the number of people who can gather indoors at one time, there may be limits on the number of community members who can attend the proceedings in person, but there will be seats available for each session on a first come, first served basis. To maximize the space for community members in Pond Inlet, and recognizing travel restrictions into Nunavut, the Board will provide opportunities to participate remotely to participants unable to travel to Pond Inlet. Details on all options for participation will subsequently be provided in the NIRB’s correspondence, as the details are confirmed, and this guidance will be available on the Board’s Public Registry at the link below.
