

Nunavut Wildlife Management Board

JORGEN BOLT MEMORIAL SCHOLARSHIP

Call for Applications

**Application deadline is
September 20, 2021**

Applications are open to students from Nunavut that will be attending a post-secondary institution (college or university) this year, and studying wildlife, wildlife management, or the application of Inuit Qaujimajatuqangit in wildlife management in Nunavut. Successful applicants will receive \$5,000 to assist them during their studies.

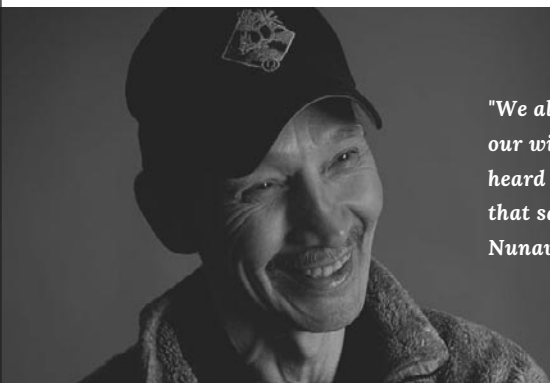

Jorgen Bolt was a proud member of the Nunavut Wildlife Management Board from 2017 to 2020. Anyone who spent any time with Jorgen knows that there were two things that were most important to him; spending time on the land observing and interacting with wildlife, and his family. These passions inspired him to work with dedication and earnestness to ensure that future generations, including his grandchildren, will be able to experience the land as he did.

As a master hunter, trapper, and guide, Jorgen was generous with sharing his wealth of knowledge, often spending hours talking with others about the things he had seen on the land and learned from his Elders. He immensely enjoyed helping younger generations through his time working with high school students and young Indigenous researchers in the Boots on the Ground Program.

Jorgen's passion for wildlife and his northern heritage was undeniable. The spirit and enthusiasm that he brought to the Board will surely endure.

"We all have to work together to conserve our wildlife, and I think from what I've heard today and yesterday, everybody has that same goal to preserve our wildlife in Nunavut."
